## PROFILE

**RHYNO**<sup>®</sup> is a name synonymous to packaging items in Gujarat for the last 27 years. **RHYNO**<sup>®</sup> group was founded by a group of businessman and pioneers in the packaging industry in 1996. **RHYNO**<sup>®</sup> has since then never looked back and continued its expansion in terms of capacity and product range.

We at **RHYNO**<sup>®</sup> group are an active, creative innovative and professionally managed family rather than a company, having specialization in manufacturing of packaging items, EPS (Thermocol), EPE foam, PP Corrugated Sheets and Boxes, & Bubble Guard/Honey Comb Sheets.

Our group of companies specialize in gathering of experts and specialists in R&D, manufacturing and marketing in the field of plastic packaging.

## MISSION

Achieve excellence and perfection by providing our clients with sustainable and efficient product at minimum possible cost. **RHYNO**<sup>®</sup>'s further mission is to continue expanding current facilities and machineries with equivalent focus on bringing new products under its brand name.

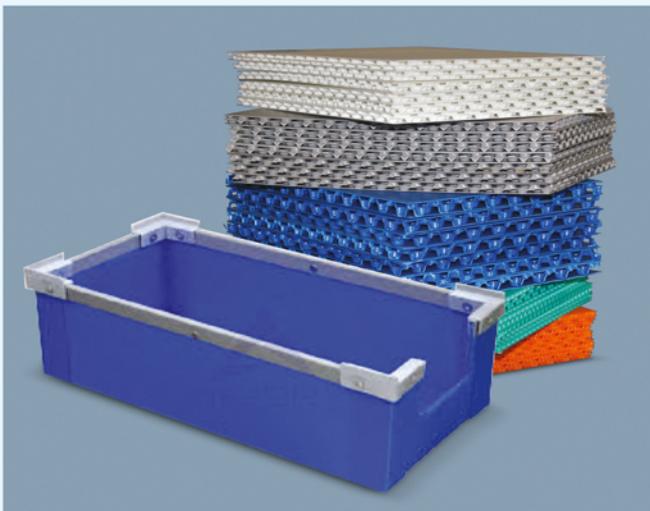

## VISION

'Growing' with clients' has always been the policy of the group. **RHYNO**<sup>®</sup> is on the path of innovative and creative thinking by servicing their clients with unique and very own packaging products.

**RHYNO**<sup>®</sup> believes in total packaging solutions under one roof, for its valuable clients. On the path of total packaging solutions, our group is introducing new products slowly and gradually under the brand name of **RHYNO**<sup>®</sup>.

We are committed and dedicated for its contribution towards Swachh Bharat Mission initiative launched by the government of India, and for this, **RHYNO**<sup>®</sup> is collecting the waste of EPS, EPE & PP Sheets from the market and recycle the same at their factory premises.

**PP BUBBLE GUARD SHEET**

With **RHINO®** being a corporate name for plastic packaging, the brand found a new scope for expansion, and set up a new unit for the manufacturing of PP Corrugated Hollow sheets with the company name as **Rahil Air bubbles PVT. LTD.** For increasing needs, **RHINO®** decided to expand and invest in automated box packing machines which includes punching and printing in 2022 under a new name of **Redical Packgaing Industries.**

- Strength
- Rigidity
- Lightweight
- Reusable
- Non - Toxic
- Colorful
- Weather Resistant
- Recyclable
- Easy to fabricate

# PP CORRUGATED/HOLLOW SHEET

In 2007, RHYNO group had become one of the top names in India when it came to plastic packaging products. Therefore, RHYNO decided to dwell into PP products also known as Polypropylene by introducing PP Hollow sheet also known as PP Corrugated sheet under the company name of **Rahil Air bubbles Pvt. Ltd.**

Our range of sheets include **Anti-Static** - for sensitive electronic components, **Conductive** - for active electronic components, **U.V. Stabilised** - for prolonged outdoor application, **Fire Retardant** – used in construction and interiors. The vast range has enabled RHYNO to gain international trust by gaining a large share in exports.

**Redical Packaging Industries** was founded in 2022 when RHYNO decided to expand and increase the uses of PP Hollow sheets which helps in catering to a larger audience. This unit allowed Rahil Airbubbles to manufacture boxes and tray out of PP Hollow sheets. These new machinery allowed faster and efficient box and tray making with the ability to print and punch.
